

# RNE Corridor Management

Michel Dupuis, RNE Vice President

# RNE Corridor Management

## Corridors as Business Promoters

**Corridor structures ensure a more efficient use of resources**

### Why Corridors ?

- Efficient way to organise international path planning, operations & quality monitoring
- Focus where the business is
- Provide a “test ground” for new processes and tools
- Intensify co-operation between
  - RUs and IMs
  - IMs and IMs

# RNE Corridor Management

## The RNE Corridor Approach

### Harmonised planning procedures are a precondition for interoperability

11 RNE Corridor Managers take care of RNE process implementation on Corridors:

- Reliable forecast on available infrastructure
- Respect harmonized international deadlines
- Shape corridor infrastructure capacity
- Facilitate capacity requests
- Improve train punctuality

➔ More efficient and competitive transports

# RNE Corridor Management

## x-24 - Corridor Infrastructure Availability Outlook

**A mid-term outlook on corridor infrastructure availability creates a win-win situation for Railway Undertakings and Infrastructure Managers.**

RUs get a more reliable basis for planning

Higher reliability of received paths

Optimized use of RU resources

IMs better co-ordinate their track possessions

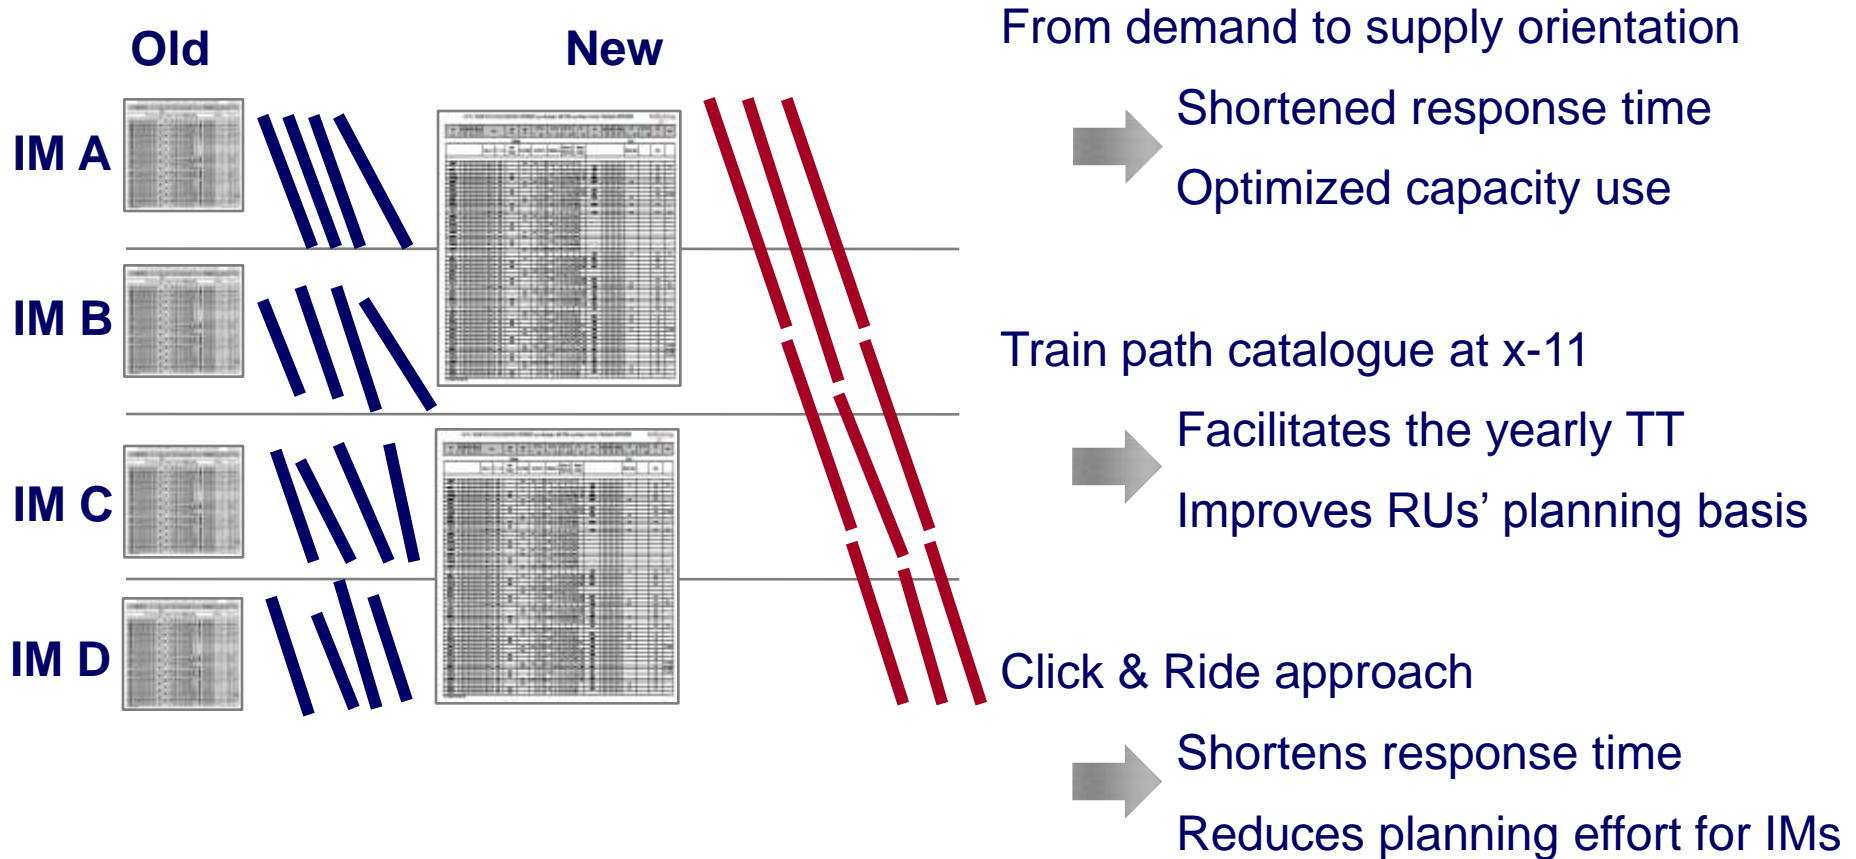

Maximize infrastructure availability

Minimize overall costs

# RNE Corridor Management Catalogue Paths

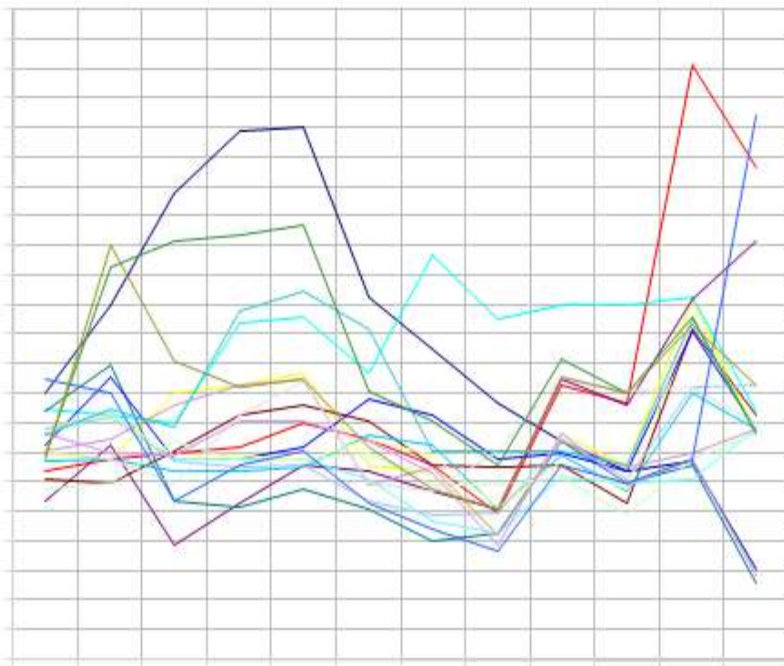

## Corridor Managers contribute to higher efficiency in International TT

# RNE Corridor Management

## Corridor Train Performance Management

**Pilots are launched on C02 and C05 to fine-tune the process from start to end**

Train runs

42017 (Köln - Gallarate) March 2009

RNE Corridor Managers steer the process

Performance Managers from all involved IMs

- Interpret performance reports
- Propose actions for quality improvement

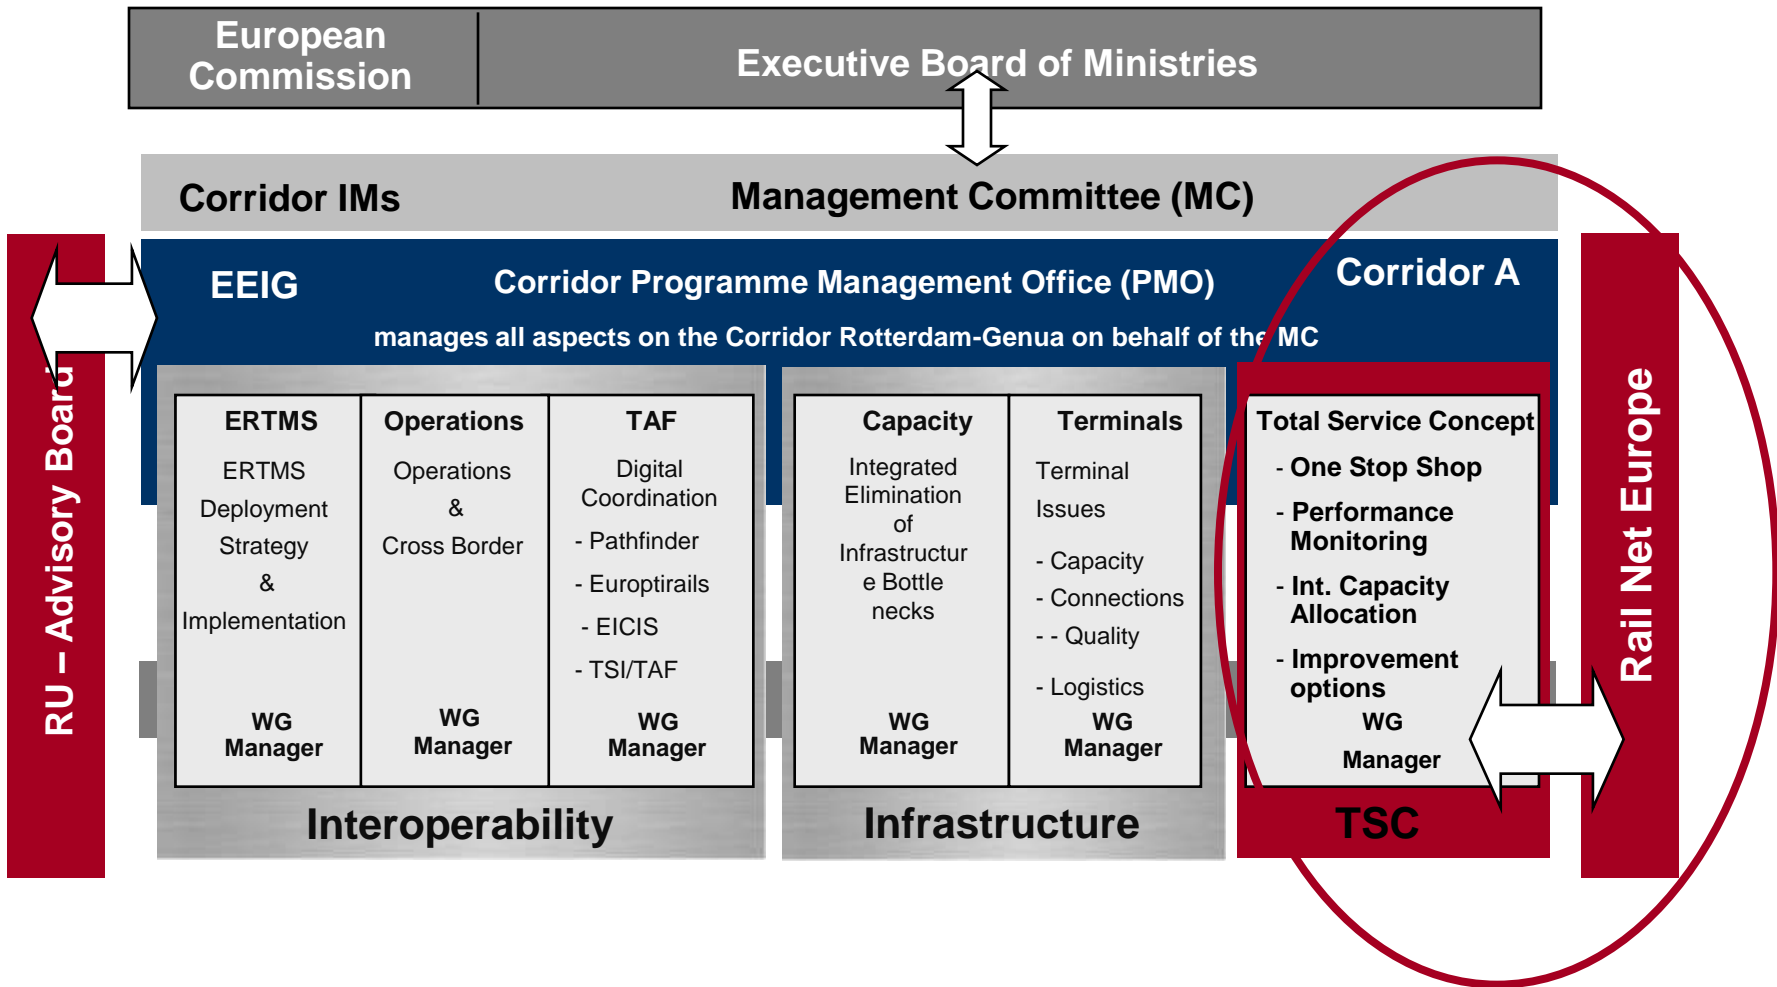

EUROPTIRAILS as main data source

- Performance reports via Oracle Discoverer

# RNE Corridor Management

## Co-operate with EEIGs or other Corridor Organisations

### ERTMS Corridor A EEIG

# RNE Corridor Management

## Apply RNE Procedures throughout Europe

### Recent RNE Corridor Network Extensions – C11 (in progress)
